VISTA 65

2 Bedroom, 1 Bathroom, 1 Living/Dining

65 m²

This sleek and sophisticated cube-shaped home with a minimalist modern appearance combines style with functionality. This compact 65m² home maximises the simplicity of the cubic form design to offer the most efficient use of living space possible.

The clever design includes all the features you would expect to see in a much larger house. The two bedrooms are separated from the living area ensuring peaceful and dedicated spaces. The full height

windows throughout and sliding doors create perfect lighting and a feeling of openness. The generous open plan living flows perfectly onto the covered outside deck with privacy wing walls so you can enjoy the extended living area making the home ideal for entertaining or simply relaxing.

This home has been designed to be a perfect lock and leave holiday home or ideal and a modern looking addition to your property or lifestyle block.
